- ✓ EV Charging Native Mobile Apps
- ✓ Cloud enablement solutions
- ✓ Telematics
- ✓ QA Testing & Optimization
- ✓ AI/ML Solutions
- ✓ Robotic Process Automation

Industry Standards & Certifications

Featured Use Case

Product Engineering and Cloud Computing & DevOps

The Challenge:

German-based renewables energy & sustainability company whose goal is to bring freedom to electric vehicles across the globe and aims to be the fast-charging network in the US regions.

Our Solution:

We partnered with a German-based automotive giant to develop a white-labelled mobile app for OEMs entering the EV market. This app empowers EV drivers to:

Types of charge stations

Charge Point Orchestration

Mobile App

- ✓ A focused, intuitive, and easy-to-use app for a seamless experience.
- ✓ Schedule & optimize charging to reduce costs.
- ✓ Locate and utilize charging stations.
- ✓ Supports informed charging decisions & encourages users to enjoy charging.

Who we are

Founded in 2009, Achala IT Solutions is a pioneering technology company that has built a strong foothold in the Indian and European markets. With over 300 employees and offices in Hyderabad and Sofia, Bulgaria, we specialize in delivering cutting-edge smart platforms across industries such as Automotive, Banking, and Healthcare. Partnering with global OEMs like BMW, AUDI, and Daimler, Achala continues to lead innovation.

Key Benefits

- ✓ Driving business transformation in renewable energy through innovation.
- ✓ Leveraging AWS cloud and advanced technologies for long-term digital transformation and automation benefits.
- ✓ Reducing AWS cloud provisioning efforts through automation.
- ✓ Lowering costs by shifting from CapEx to OpEx investments.
